SUMMARY

7th-semester Information Systems & Technology student at Cyber University with a strong academic foundation (GPA 3.88/4.00) and hands-on experience in system analysis, IT governance, and quality assurance. Demonstrated leadership, risk management, and cross-functional coordination. Open to versatile IT roles, including IT Governance, Quality Assurance, IT Strategy, and Systems Analyst internships

EDUCATION

Cyber University, Undergraduate Bachelor of Computer Science **Jan 2023 - Present**
GPA : 3.88/ 4.00
Major : Information Systems & Technology
Relevant Coursework: Web Programming, UI/UX Design, Cyber Security, System Analysis & Design.

EXPERIENCE

System Analyst Intern **April 2026 - Sept 2026**
PT Bank Raya Indonesia Tbk

- Updated enterprise governance standards to define clear engineering and procurement guidelines, reducing cross-divisional handoff bottlenecks
- Established the banking application criticality and tiering framework, standardizing categorization and aligning Disaster Recovery Plan testing with system risk levels.
- Streamlined development requirements into centralized procedures, accelerating system handoffs and standardizing testing benchmarks across core banking initiatives

Head of English Club **Feb 2025 - Feb 2026**
Cyber University

- Directed the organizing committee of 'ECTION 2.0,' ensuring the success of an international competition with participants from Indonesia and Malaysia.
- Revitalized the club by executing strategic recruitment campaigns, successfully onboarding 71 new active members.

Student Exchange Hackathon Participant **June 2025 - Aug 2025**
Cyber University x Universiti Teknologi PETRONAS (UTP)

- Secured 2nd Runner-Up in the UTP Fintech Hackathon by collaborating with international students to solve real-world financial literacy problems.
- Developed the prototype for 'XPVEST,' a gamified platform that transforms financial education into an immersive simulation experience.
- Created and delivered a comprehensive pitch deck to a panel of judges, effectively communicating the product's value proposition and business model.

SKILL

Technical Skills
